# Sentinel Spaces

A new opportunity for Managed Security Service Providers (MSSPs) to upsell and enhance client services

Sentinel Spaces is an advanced application for MSSPs to ensure secure out-of band communication is maintained throughout a cyber attack or IT outage, delivering faster resolution and a lower incident cost for clients.

The business opportunity for MSSPs is to charge a licence fee for each dedicated client Space.

KEY BENEFITS FOR MSSPs

Provide an Enhanced Service Offering to Clients

Your Own-Branded App to Deliver Services
